FOR IMMEDIATE RELEASE

### **Global Trivia Competition Inspires Students with a WORLD of Learning**

*Supporting Global Education at the Annual OneWorld Gala, first virtual experience*

**CINCINNATI, OH & NORTHERN KENTUCKY, March 1, 2021** – During 2020, the World Affairs Council has pivoted to virtual learning opportunities for students and teachers; innovated with virtual exchanges; and moved quickly to monthly webinars with foreign affairs speakers. Despite the uncertainty, we remain committed to serving our community and helping to diminish boundaries.

In 2021, in whatever way we can safely accomplish it, the Council is going to continue creating international connections, raising awareness on imperative global topics, and developing empathy within students through creating an online learning platform.

The Council is proud to announce the 8<sup>th</sup> Annual One World Gala occurring for the first time virtually on April 10th. There will also be two pre-gala happy hours: April 6, International i-EATS Restaurant Insider Chat & April 8, Cocktails of the World with Molly Wellmann. As our only fundraiser during the year, we need your support to continue increasing students' global skills for our world.

"The diversity of the experience and content was quite remarkable. More importantly the engagement of the attendees really spoke to the idea of embracing diversity and making community and business leaders realize how important it is to focus on inclusion rather than exclusion in interactions both professional and personal. The organization stands for everything that is right with Cincinnati and its goals moving forward." Past Gala Participant

Sponsored by Carol Ann & Ralph V. Haile, Jr. Foundation proceeds from the event will support global education programs which prepare local students to succeed in the 21st century. Support local restaurants, create a special cocktail, and form your team today to play a part in these highly anticipated experiences supporting ongoing educational programs that help students live, work, and lead globally.
